

GAMES GALORE: SCIENCE IS FUN

From The Young Scientist's Club

www.theyoungscientistsclub.com

The Magic School Bus Space Lab

Ms. Frizzle and her students take Young Scientists on a wild ride with The Magic School Bus as they explore Space. "Students" will use the included Star Pilot to locate constellations both on the star ball and in the night sky. Experiments and activities include making a constellation box, learning about the life cycle of a star, making a solar system mobile, creating a planet poster, making a night-vision flashlight, and much more. Ages 5+

Science-Art Fusion Explosions

This kit combines art and science to inspire creativity while at the same time introducing basic scientific concepts. Included is a unique Science-Art Fusion poster that has the instructions for each project placed in a framed space which can be covered by taping a photo of your final art piece to create a Explosions Art Gallery. Ages 5 +
