## WHIFFER SNIFFERS

I'm always on the look out for new toys for my daughters. Whether it's just a toy for them for being good, for Christmas or even for birthdays, I always try to see what there is out there that's new. It's fun to come across new toys, and I'll admit, I still love toys too! I'll sit and play with my girls if they want me to. It brings back old memories of playing with them when I was young as well. I recently came across these toys that are called [Whiffer Sniffers](#). When I found out that they're these stuffed toys that actually smell, I knew I had to get them for my daughters.

Whiffer Sniffers has a line of products that actually have scents that smell amazing! The line is of plush characters that actually smell. These are produced in the U.S., and they say the scent lasts up to a year! That's amazing, isn't it!? My daughters love the backpack clip plush characters because they can bring those to school. Ever since we have gotten them, they have left them on their backpacks. They let their friends smell them when they're on the bus or at school. Everyone seems to love them too!

I love the backpack clips a lot and so do my girls. They each got three of them to clip to their backpacks. They were so excited to receive this package too. I told them what they were and they kept wanting to open them up right away! I was just so happy just to see how happy my daughters were to receive these. They're definitely a hit with all the kids too!

The super sniffers are the bigger Whiffer Sniffers. These are all 11 inches in height. They're much bigger than the backpack clips. These bigger ones are nice for kids to be able to play with as a stuffed toy. My girls have a lot of fun playing with Maci Macaron, which is the one they received. It's so extremely soft too! I'm talking really soft. I wanted to keep this for myself because I loved it that much! They even have the scratch and sniff stickers!

These kinds of stickers were always my favorites while growing up. My girls now get to enjoy them as well. I know that the schools often give out these types of stickers as well. These Whiffer Sniffer scratch and sniff stickers sure are great! Now you can put these stickers anywhere you'd like and you can smell the wonderful scents anywhere you'd like! Just scratch the sticker and then smell them.

These [Whiffer Sniffer](#) products are amazing! I don't think I've ever seen my girls be so happy over a product. They have been playing with these just about every day since they got them too. I know that their friends love them as well and are always wanting to smell them too. I honestly think these would make a great gift and make many kids happy. Sometimes giving someone a gift can really cheer them up, and I think this is a product that could cheer up just about any child. Easter is coming up soon, so these could make great Easter basket gifts too!
