

9 Best Stargazing Tools To Inspire Your Little Constellation-Loving Space Cadet

Best Space Toy for Snuggling

Celestial Buddies Comet Stuffed Toy

Your kids' stuffed animal collection will be out of this world thanks to this 4-inch Comet plush with a sparkly Mohawk. The uber-soft space toy is part of the celestial collection of our solar system—Saturn, Jupiter, and Neptune, to name a few. And of course, there is “Earthy,” a stuffed toy that real NASA astronauts took with them aboard the SpaceX rocket to the International Space Station. Back on earth, toss this shimmery planetary pal across the room as part of the DIY meteor shower game—it’s better than a pillow fight. Come bedtime, kids will love to snuggle up with this little guy as they dream of galaxies and constellations.
